

LEARNER RESPONSE SYSTEM

Promethean ActivEngage Mobile is a software-based Learner Response System (LRS) that runs on Apple iOS and Android mobile devices. The client software application may be downloaded from the Android Marketplace or from the Apple App Store.

DOWNLOAD

Software Download

The server is available to download from Promethean Planet. The client is available to download from either the Apple App Store or the Android Market Place. Links to download both versions can be found at www.PrometheanPlanet.com/ActivEngage

SOFTWARE EDITIONS

Server Edition

Includes Server Edition software (Windows and Mac)

Client Edition

ActivEngage client software for Windows and Mac Network computers

TECHNICAL SPECIFICATIONS

User Input

Users can respond on their mobile devices using touch input (dependant on the device), or the keyboard

Network

ActivEngage allows multiple Virtual Hubs to be installed at the same time facilitating mobility between rooms

Communication

IP Network required

Language(s)

Arabic, Danish, Dutch, English, English (UK), Finnish, French, German, Italian, Norwegian, Portuguese, Russian, Spanish, Swedish

GENERAL SPECIFICATIONS

Response Types

Multiple Choice, True/False, Y/N, Multiple Response, Sort-In-Order, Likert Scales, Confidence Checking & Alphanumeric Response, Self-Paced Learning functionality

Text Response

User can respond with a Text Entry of words, phrases, numbers, symbols and punctuations. Maximum 255 characters to enter in both normal and self-paced text question.

Question Data Import

ExamView® XML importer (version 5 or earlier)

Question Data Export

Questions and results can be exported to Microsoft® Excel® and .txt, including Self-Paced Learning functionality

Working with other Applications

The Express Poll (Wonderwheel) tool floats over most applications such as web browsers, Microsoft® Word® and Excel®

Question Preparation

Question Manager allows for preparing questions; Express Poll allows for in-the-moment questioning

Response Monitoring

Results can appear instantly in real time during a test or saved for viewing at a later time; Results can be captured either by user's name or anonymously

GENERAL SPECIFICATIONS (CONTINUED)

Compatibility

ActivEngage clients can be used together with ActivExpression devices in both Self-Paced and non Self-Paced Learning response sessions. ActivEngage works with any interactive whiteboard, but can also work independently, working solely with a projector or networked computers. Fully compatible with Promethean ActivOffice, ActivInspire and ActivProgress.
