

### LEARNER RESPONSE SYSTEM

ActivEngage is a software-based learner response system. In education environments that have invested in 1:1 computer initiatives, mobile laptop carts or computer labs for learners, ActivEngage extends the use of these networked computers for whole group instruction. Using ActivInspire, the teacher displays a question on a classroom display (interactive whiteboard) or verbally. Students respond to the question using the ActivEngage client software on their computer screens by clicking or using their keyboards. The ActivEngage Server can be the teacher's computer or a centrally managed computer.

### DOWNLOAD

#### Software Download

Download both the Server and Client editions at no cost. ActivEngage allows for three clients to participate in an ActivInspire response session. When a license is purchased for the desired number of clients, a key to unlock the software is provided. To use ActivEngage, ActivInspire is required. Download ActivEngage at [www.PrometheanPlanet.com/ActivEngage](http://www.PrometheanPlanet.com/ActivEngage)

### SOFTWARE EDITIONS

#### Server Edition

The Server Edition download includes both the server and client software (Windows and Mac) as well as ActivDriver

#### Client Edition

The Client Edition download contains only the ActivEngage client software for Windows and Mac networked computers

### TECHNICAL SPECIFICATIONS

#### User Input

Users can respond by either using their computer mouse to click on their choice of answer, or use a keyboard to respond in full sentences

#### Network

ActivEngage allows multiple Virtual Hubs to be installed at the same time facilitating mobility between classrooms

#### Communication

IP Network required

#### Language(s)

Arabic, Danish, Dutch, English, English (US), Finnish, French, German, Italian, Norwegian, Portuguese, Russian (Cyrillic), Spanish, Swedish

### GENERAL SPECIFICATIONS

#### Response Types

Multiple Choice, True/False, Y/N, Multiple Response, Sort-In-Order, Gap Fill Words, Likert Scales, Confidence Checking & Alphanumeric Response, Self-Paced Learning functionality

#### Text Response

**Self-Paced Text Entry Limitation**  
 · Up to 2000 characters in English  
 · Up to 1000 Characters for Non English Languages  
**Standard Text Entry**  
 · Up to 250 Characters in English

#### Question Data Import

ExamView® XML importer (version 5 or earlier)

#### Question Data Export

Questions and results can be exported to Excel™ and .txt (requires ActivInspire Professional Edition) including Self-Paced Learning functionality

#### Working with other Applications

Interface (Express Poll/Wonderwheel) tool can "float" over most computer applications such as web browsers, Word™, Excel™

#### Question Preparation

Question Wizard allows for preparing questions; Questions can be timed; Express Poll allows for on-the-fly questioning; New Self-Paced Wizard

**GENERAL SPECIFICATIONS (CONTINUED)**

<b>Response Monitoring</b>	Results can appear instantly or viewed at a later time; Users can be allowed to modify their response; Results can be captured either by user's name or anonymously
<b>Compatibility</b>	ActivEngage clients can be used together with ActivExpression devices in ActivInspire response sessions. ActivEngage works with any interactive whiteboard, but can also work independently, working solely with a projector or networked computers.

**MINIMUM COMPUTER REQUIREMENTS**

<b>ActivEngage Server: Managed/Network Computer</b>	Pentium 4 - 1 Ghz processor (800MHz for Vista) Windows XP Pro SP3 and above (XP/Vista/7), Windows Server 2003 32 & 64 bit (Inc R2) and Windows Server 2008 32 & 64 bit (Inc R2) Intel Mac OS X 10.5 and above, OS X Server 10.6.0 Intel 64 Bit 30 Mb disk space, 128 Mb system memory required IP Network Support for both Server and Client computers
<b>Registration Computer (Teacher's Computer)</b>	Pentium 4 - 1 Ghz processor (800MHz for Vista) Windows XP Pro SP3 and above (XP/Vista/7) Intel Mac OS X 10.5.5 and above 1024 x 768 resolution 1.5 GB disk space, 512 Mb system memory required IP Network Support for both Registration and Client computers <b>ActivDriver Version:</b> · Windows Version 5.4 (32 or 64 bit) and above · Mac Version 5.5 and above <b>ActivEngage Server:</b> · Windows and Mac Version 2.0.3 and above ActivInspire Professional Edition required for full LRS features including Self-Paced Learning (ActivInspire Professional Edition included for free when purchasing an ActivEngage license) *ActivInspire 1.4 required for enhanced network broadcast support
<b>ActivEngage Client: Windows Client</b>	Pentium 4 - 1 Ghz processor (800MHz for Vista) 30 Mb disk space, 128 Mb system memory required Windows XP Pro SP3 and above (XP/Vista/7)
<b>Intel Macintosh Client</b>	35 Mb disk space, 128 Mb system memory required Intel Mac OS X 10.5.5 and above IP Network Support required
<b>Installation</b>	ActivEngage requires the use of ActivInspire Personal or Professional Edition to register clients and conduct response sessions. Importing ExamView® and XML files as well as exporting questions and answers to Excel™ requires ActivInspire Professional Edition. User with administrator/privileged access rights required for software installation.
