

ActivInspire is the foundation for any 21st century teaching and learning experience. Software designed specifically for use with education technology, ActivInspire enables the teacher to lead the class on an interactive whiteboard, create new lessons filled with rich, powerful activities to grab the attention of the whole class, or work with students on personalized Assessment for Learning activities.

Why ActivInspire?

Creates the right learning environment for students — ActivInspire delivers new and extended learning opportunities, enhanced user collaboration and engagement feels intuitive and natural – use the right tool for the right task. An assortment of backgrounds, images and activities are included and ready for use.

Improves classroom productivity by design — ActivInspire enables teachers to support individual students, groups and whole classes. With fully functional, integrated tools like spotlight and revealer – teachers deliver more effective lessons. It is quick and easy to instantly create question sets across multiple pages and flipcharts. Teachers and students gain immediate feedback on Assessment for Learning activities, via meaningful data.

Large variety of teacher resources — With curriculum-based templates and resources included, ActivInspire supports teachers from the start. Connectivity with Promethean Planet, the world's largest interactive whiteboard community, allows teachers to download free or Publisher Created Resources for use in the classroom.

Ease of use — ActivInspire's intuitive interface allows teachers to easily create lessons, enhance collaboration and engage students through interactive tools.

Dual interface:

Switch between Primary for young learners and Studio for older students

Pen and touch:

Enhanced collaboration
