

THIS DOCUMENT CONTAINS SPECIFICATIONS FOR

Promethean ActivPanel Touch Mobile Stand

DESCRIPTION

The Promethean ActivPanel Touch Mobile Stand provides an economical solution for the use and movement of a Promethean ActivPanel Touch where the panel is not mounted on a permanent structure.

The height at which the panel is positioned can be adjusted at the time of stand assembly via the mounting plate. The mounting plate is designed to accept the brackets included with the ActivPanel Touch.

The four locking castors allow easy movement on smooth surfaces and secure location when in use.

The two shelves on the Mobile Stand can house computing or audio-visual equipment used with the ActivPanel Touch. The middle shelf also provides an indented tray for keeping ActivPanel pens or similar small items.

OVERVIEW

Installation

Use of components not supplied by Promethean or not meeting minimum specifications may impact performance and affect warranty. Contact your Promethean partner or visit www.PrometheanKB.com for more information.
